Proteus

Proteus Brutus FS

The PROTEUS BRUTUS FS is an extremely bright IP66 rated LED Follow Spot fixture offering high intensity and excellent color quality at long distances. Operated manually with removable handles or remotely through one of the many automated remote tracking systems in the market, this purpose build fixture is ideal for any indoor and outdoor application that requires precise and smooth operation, flexible color control and superior output in medium to long throw follow spot applications. The PROTEUS...

Proteus Atlas

The remarkable PROTEUS ATLAS is an extremely powerful and feature-packed IP66 Beam FX fixture with razor-thin 0.6° beam (zoomable to 8.5°) that slices through the night sky in a mesmerizing display visible from vast distances.

ELA0264	PROTEUS ATLAS

Proteus Radius

The PROTEUS RADIUS is a compact IP66 High Intensity Beam FX fixture. Utilizing an efficient 100W Solid State Phosphor-Converted (SSPC) light engine the fixture projects narrow intense beams with incredible power at long distances. Incredibly fast 360 Degree of Movement on both axis allow impactful beam animations, while the CMY color mix, gobos, prisms and frost options allow the designer to compose an endless array of stunning aerial effects.

ELA0279	PROTEUS RADIUS

Proteus Hybrid Max

The PROTEUS HYBRID MAX™ combines high output and long lamp life in a feature packed compact IP66 Hybrid fixture. PROTEUS HYBRID MAX is the Extreme Output Hybrid featuring the innovative Philips MSD Platinum FLEX 500 lamp.Rated at 550W and up to 4,000 hours smart lamp life the HYBRID MAX includes CMY and variable CTO plus a full complement of projection and effects options.Four prisms on two planes, dual frosts plus dual gobo wheel and three tracks of animation patterns roun...

Accessories

Fuze Wash 500 Motorized Barndoors

The FUZE WASH 500 Motorized Barndoors enhance the frensel optic with a fully remote-controlled external beam shaping system. The result are smooth defined edges for excellent area control in any application.

ELA0121	FW500 Motorized Barndoors
ELA0122	FW500 Motorized Barndoors WH

Fuze Wash 500 Ovalizer

The FUZE WASH 500 Ovalizer lens creates a rotating oval beam in the projected pattern. The lens is indexable with 16bit accuracy or can rotate continuously for beam effects. It replicates the beam pattern found in traditional incandescent PAR fixtures to allow remote control of the illuminated area. The lens is easy to install onto the front of the fixture with four captive screws, and the DMX layout already contains the lens index control.

ELA0123	FW500 Ovalizer

Smarty

Smarty Hybrid

The Smarty Hybrid™ is a compact full featured CMY color mixing spot, beam, and wash hybrid luminaire featuring the all new Philips™ MSD Platinum 200 Flex lamp with "FLEX" technology which uses a smartly designed discharge lamp/ballast package to produce high output and compact performance at an efficient, long life solution of up to 6,000 hours.

ELA0374	Smarty Hybrid

Smarty Max

The SMARTY MAX™ combines high output and long lamp life in a feature packed compact and lightweight Hybrid fixture. SMARTY MAX is the Extreme Output Hybrid featuring the new Philips MSD Platinum FLEX 400 lamp and Elation's 2 year / 4,000 hours Ultimate Warranty.** Rated at 480W and up to 4,000 hours smart lamp life the SMARTY MAX includes CMY and variable CTO and is the world's first Hybrid incorporating a full Iris for dynamic beam effects. Four prisms on two planes, dual frosts plus dual gobo wheel and the unique dual track animation round out the comprehensive FX package in a compact and lightweight housing.

ELA0375	Smarty Max

KL

KL Par FC IP

The KL PAR FC IP™ is a compact full-color-spectrum IP65 rated LED fixture that provides high output, precise color temperature control, full-spectrum color rendering, and even wash coverage. Offering powerful color intensity and a wide array of saturated and pastel colors from its efficient RGBMA engine, it is also optimized for the tunable white light requirements of Film and Television.

ELA0160	KL PAR FC IP

KL CYC S

The KL CYC S is the perfect fixture for smooth and even cyclorama, set and wall washing applications. It utilizes a carefully crafted asymmetrical reflector design to achieve perfect blends while covering significant heights with ease.

ELA0133	KL CYC S

KL CYC L

The KL CYC L is the perfect fixture for smooth and evenly illuminated cyclorama, set or wall washing application. It utilizes a carefully crafted asymmetrical reflector design to achieve perfect blends while covering significant heights with ease.

KL PAR IP Compact

Compact, powerful, and versatile, the KL PAR IP COMPACT delivers exceptional lighting performance in a small, rugged package. Designed for any environment, this IP65-rated LED fixture offers precise color temperature control, full-spectrum rendering, and consistent wash coverage, powered by a highly efficient RGBMA engine that provides up to 5,474 lumens.

Its advanced ColourTune Technology delivers exceptional color accuracy (CRI 94.9, TLCI 95), 16-bit variable CCT control, and adjustable LED refresh frequency, making it perfect for film, television, and live events. With multiple lens options, DMX/RDM compatibility, and a touch bar encoder for instant adjustments, it's ready for any production need.

Streamline your lighting setup and discover how the KL PAR IP COMPACT can elevate your next production.

ELA0448	KL PAR IP Compact

KL PROFILE FC Compact

Designed for precision and performance, the KL PROFILE COMPACT brings unparalleled flexibility to any venue, utilizing a compact form factor that delivers exceptional results across diverse applications with vivid color and outstanding quality.

It's advanced optical engineering, combined with integrated 25–50-degree manual zoom and premium lens coatings, ensures sharp, flawless projections free from color shifts or aberrations, regardless of the zoom, focus, or framing position.

Powered by Elation's ColourTune Technology and boasting a CRI of 94.9 and TLCI of 95., the fixture achieves superb color accuracy with 16-bit variable CCT control. Coupled with the ultra-quiet Mute Mode for silent functionality, the KL PROFILE COMPACT redefines precision lighting for theaters, performance venues, and live events, allowing designers to perform brilliantly and broadcast their creative vision.

KL CORE IP Fresnel Lens

Experience unmatched versatility with the KL CORE IP Fresnel Lens, designed to elevate the performance of your KL CORE IP fixture. This zooming Fresnel lens delivers soft, uniform light distribution with exceptional light transmission efficiency, ensuring optimal performance in any setting. With a broad zoom range of 10°- 45°, it provides ultimate flexibility for diverse lighting applications. The robust C4 Marine Coating ensures the lens is built to withstand any environment—indoors or outdoors—making it the ideal choice for demanding conditions.

ELA0430	KL CORE IP Fresnel Lens

KL CORE IP Bowens Mount

Unlock the flexibility of the KL CORE IP with the KL CORE IP Bowens Mount. This versatile adapter transforms the KL CORE engine into a Lamphead or Monolight device, expanding its compatibility with a wide range of beam-shaping accessories.

KL CORE IP

SÅŒL

SL I Blinder

Using simple fixture interconnects, threaded adapters, mounts and yoke accessories, designers can effortlessly link SL I Blinder to other fixtures or devices, exponentially expanding creative options for unique shapes and arrays. Use it as a single-cell, 2- or 4-cell blinder or connect even more fixtures together for a versatile effects panel that is perfect for eye-candy looks. Create linear blinder arrays, single or multi-unit pendants, custom shapes, and more.

ELA0393	S?L I Blinder

SL II Blinder

Key Features: 2x 350W RGBLAW LED, 30,750 Total Fixture Lumen Output (Sphere), 46° Beam Angle, Simple 'Array Mode' Addressing System, Individual Pan Adjustment with Lock, Dim-to-Warm/ Red Shift Emulation, High Output Blinder Mode or Constant Output Mode Options, Unique Horizonal and Vertical Array Rigging Method (Compatible with SL IV, SL I Blinder Frame, Pulse Panel, SIX+ BAR and PULSE BAR Interconnect), IP65 Rated

ELA0400	S?L II Blinder

SL IV Blinder

Key Features: 4x 350W RGBLAW LED, 59,830 Total Fixture Lumen Output (Sphere), 46° Beam Angle, Simple 'Array Mode' Addressing System, Individual Pan Adjustment with Lock, Dim-to-Warm/ Red Shift Emulation, High Output Blinder Mode or Constant Output Mode Options, Unique Horizonal and Vertical Array Rigging Method (Compatible with SL II, SL I Blinder Frame, Pulse Panel, SIX+ BAR and PULSE BAR Interconnect), IP65 Rated.

DTW

DTW Blinder 350 IP

The IP65 rated DTW Blinder 350 IP™ features (2) high powered 175W 2-in-1 Warm White / Amber COB LEDs, 65° wide beam angle, full color temperature range control plus independent Dim-to-Warm channel control (1,800K - 3,200K), easily attachable 15° narrow beam filters (included), pixel control, manual adjustable pan focus, variable dimming curve modes, strobe effects, flicker free operation for TV and Film, RDM (Remote Device Management), IP rated DMX and IP65 Locking Power Cable in/out connections, LCD menu display with 4 touch button control panel, integrated yoke and side mounting brackets, and a multi-voltage universal auto switching power supply (100-250v).

ELA0073	DTW Blinder 350 IP

DTW Blinder 700 IP

The IP65 rated DTW Blinder 700 IP™ features (4) high powered 175W 2-in-1 Warm White/Amber COB LEDs, a wide 67° beam angle, full color temperature range control plus independent Dim-to-Warm channel control (1,800K - 3,200K), easily attachable 15° narrow beam filters (included), pixel control, manual adjustable pan focus, variable dimming curve modes, strobe effects, flicker free operation for TV and Film, RDM (Remote Device Management), IP rated DMX and power in/out connections, LCD menu display with 4 touch button control panel, integrated yoke and side mounting brackets, and a multi-voltage universal auto switching power supply (100-250v).

ELA0074	DTW Blinder 700 IP

Pulse

Pulse Panel FX

Merge explosive strobe power with visual creativity and dynamic movement with the PULSE PANEL FX. A highly versatile and expressive fixture in the innovative Pulse line of strobe lights, the PULSE PANEL FX adds a burst of dynamism and inspiration to any show.

ELA0294	Pulse Panel FX

Pulse Panel

The PULSE PANEL features the same LED layout found on the Pulse Panel FX. 1,152 1.5W RGB LEDs spread across 24 zones around its perimeter, arranged in a grid of 6 zones wide and 4 zones tall. In addition to this, it includes a central strobe line comprising 288 5W cool-white LEDs organized into 24 zones, with 12 zones across and 2 zones tall.
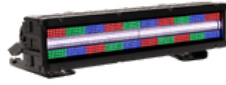

ELA0293	Pulse Panel

ELATION

Pulse Bar S

Measuring half a meter in length, the PULSE BAR S incorporates 480 1.5W RGB LEDs distributed across 20 zones along its perimeter. Additionally, it features a central strobe line equipped with 200 5W cool-white LEDs across 20 zones, complemented by 80 1.5W RGB LEDs arranged in 10 zones at its core. When combined, these components deliver an output exceeding 13,327 total lumens.

ELA0292	Pulse Bar S

Pulse Bar L

Measuring a meter in length, the PULSE BAR L incorporates 960 1.5W RGB LEDs distributed across 40 zones along its perimeter. Additionally, it features a central strobe line equipped with 400 5W cool-white LEDs across 40 zones, complemented by 160 1.5W RGB LEDs arranged in 20 zones at its core. When combined, these components deliver an output exceeding 25,191 total lumens.

ELA0291	Pulse Bar L

Paladin

Paladin Cube

The PALADIN CUBE™ is a compact and powerful outdoor floodlight for a wide variety of applications. Using 9x15W RGBW cells it provides a total output of up to 3,200 lumens. Certified to IP65 it features a rugged design with a solid build quality, eliminating the need to worry about dust and water ingress.

ELA0197	PALADIN CUBE

Paladin Brick

The PALADIN BRICK™ is a compact and powerful outdoor flood light for a wide variety of applications. Using 24x15W RGBW cells it provides a total output of up to 8,200 lumens. Certified to IP65 it features a rugged design with a solid build quality, eliminating the need to worry about dust and water ingress. IP rated connections make it an ideal product to illuminate large areas of any outdoor event with vibrant and powerful colors. It can be operated standing on the floor or be hung in any orientation using the provided omega brackets. Available cell control and strobe features make the PALADIN BRICK also a versatile effects fixture or audience blinder.

ELA0189	PALADIN BRICK

Paladin Panel

The PALADIN PANEL™ is a compact and powerful outdoor floodlight for a wide variety of applications. Using 50x15W RGBW cells it provides a total output of up to 20,000 lumens. Certified to IP65 it features a rugged design with a solid build quality, eliminating the need to worry about dust and water ingress. IP rated connections make it an ideal product to illuminate large areas of any outdoor event with vibrant and powerful colors. It can be operated standing on the floor or be hung in any orientation using the provided omega brackets. Available cell control and strobe features make the PALADIN PANEL also a versatile effects fixture or audience blinder.

Six+

Six+ Par S

The SIX+ PAR S is a compact and rugged LED fixture that features (7) 20W RGBLA+UV LED's, which produce an ultra-wide color spectrum and high quality of light while still offering up to 4,570 lumens of output. The optical system has been carefully engineered to offer an even distribution of light and color homogenization within the beam. This fixture has been designed to offer ultimate flexibility, use it indoors or out, it's IP65 rating can handle any environment, and with it's C4-M marine grade coating, it's even safe in harsh costal environments.

ELA0308	Six+ Par S

Six+ Par L

The SIX+ PAR L is a compact and rugged LED fixture that features (14) 20W RGBLA+UV LED's, which produce an ultra-wide color spectrum and high quality of light while still offering up to 7300 lumens of output. The optical system has been carefully engineered to offer an even distribution of light and color homogenization within the beam. This fixture has been designed to offer ultimate flexibility, use it indoors or out, it's IP65 rating can handle any environment, and with it's C4-M marine grade coating, it's even safe in harsh costal environments.

ELA0307	Six+ Par L

Six+ Bar S

Equipped with 20W RGB+Lime+Amber+UV LEDs and boasting an impressive CRI of 90.9, the SIX+ BAR S offers a stunning array of colors, ensuring a beautifully homogenized wash of light with high-quality color reproduction. Its meticulously engineered optical system ensures even light distribution, and the proprietary RGBLA+UV engine delivers high-fidelity whites and intense primaries with no color fringing. Extra-large 50 mm lenses make it ideal for direct view applications and individual cell control opens up for a myriad of design possibilities.

ELA0306	Six+ Bar S

Six+ Bar L

Equipped with 20W RGB+Lime+Amber+UV LEDs and boasting an impressive CRI of 92.3, the SIX+ BAR L offers a stunning array of colors, ensuring a beautifully homogenized wash of light with high-quality color reproduction. Its meticulously engineered optical system ensures even light distribution, and the proprietary RGBLA+UV engine delivers high-fidelity whites and intense primaries with no color fringing. Extra-large 50 mm lenses make it ideal for direct view applications and individual cell control opens up for a myriad of design possibilities.

SixPar

SixPar 100

The indoor version SIXPAR 100™ features (7) 12W 6-IN-1 RGBAW+UV LEDs, 15° beam and 25° field angles, electronic strobe and dimming (0-100%), 5 variable dimming curve modes, dual yoke / floor stand, multiple unit power linking, RDM (remote device management), rugged die-cast aluminum exterior, flicker free operation for TV and FILM, and a multi-voltage universal auto switching power supply (110-250v).

ELA0322	SixPar 100

SixPar 100IP

The IP65 rated SIXPAR 100IP™ features (7) 12W 6-IN-1 RGBAW+UV LEDs, 15° beam and 25° field angles, electronic strobe and dimming (0-100%), 5 variable dimming curve modes, dual yoke / floor stand, multiple unit power linking, RDM (remote device management), rugged die-cast aluminum exterior, flicker free operation for TV and FILM, and a multi-voltage universal auto switching power supply (110-250v).

ELA0323	SixPar 100IP

SixPar 200

The indoor version SIXPAR 200™ features (12) 12W 6-IN-1 RGBAW+UV LEDs, 15° beam and 25° field angles, electronic strobe and dimming (0-100%), 5 variable dimming curve modes, dual yoke / floor stand, multiple unit power linking, RDM (remote device management), rugged die-cast aluminum exterior, flicker free operation for TV and FILM, and a multi-voltage universal auto switching power supply (110-250v).

ELA0324	SixPar 200

SixPar 200IP

The new IP65 rated SIXPAR 200IP™ features (12) 12W 6-IN-1 RGBAW+UV LEDs, 15° beam and 25° field angles, electronic strobe and dimming (0-100%), 5 variable dimming curve modes, dual yoke / floor stand, multiple unit power linking, RDM (remote device management), rugged die-cast aluminum exterior, flicker free operation for TV and FILM, 150W max power consumption, and a multi-voltage universal auto switching power supply (110-250v).

ELA0325	SixPar 200IP

SixPar 200WMG

The IP65 outdoor rated SIXPAR 200WMG includes the same features as the standard SIXPAR 200IP model but with a special added White Marine Grade exterior coating designed for the marine/coastal environment installations.

ELA0326	SixPar 200WMG

SixPar 200WMG HW

The IP65 outdoor rated SIXPAR 200WMG HW includes the same features as the standard SIXPAR 200IP model but a special added White Marine Grade exterior coating and Hard Wired (bare wire) IP-rated power/data combo in/out cables attached, designed for permanent marine/coastal environment installations.

ELA0327	SixPar 200WMG HW

SixPar 300

The indoor version SIXPAR 300™ features (18) 12W 6-IN-1 RGBAW+UV LEDs, 15° beam and 25° field angles, electronic strobe and dimming (0-100%), 5 variable dimming curve modes, dual yoke / floor stand, multiple unit power linking, RDM (remote device management), rugged die-cast aluminum exterior, flicker free operation for TV and FILM, and a multi-voltage universal auto switching power supply (110-250v).

ELA0328	SixPar 300

SixPar 300WMG

The IP65 outdoor rated SIXPAR 300WMG includes the same features as the standard SIXPAR 300IP model but with a special added White Marine Grade exterior coating designed for marine/coastal environment installations.

Featuring (18) 12W 6-in-1 RGBAW+UV LEDs producing a 23° beam angle, internal color and color chase macros, electronic strobe and variable dimming curve modes, manual and DMX-512 control, RDM (remote device management) support, dual yoke / floor stand, multiple unit power linking, rugged die-cast aluminum white marine grade coated exterior, flicker free operation for TV and FILM, and a multi-voltage universal auto switching power supply (110-250v).

ELA0330	SixPar 300WMG

SixPar 300WMG HW

The IP65 outdoor rated SIXPAR 300WMG HW includes the same features as the standard SIXPAR 300IP model but with a special added White Marine Grade exterior coating and Hard Wired (bare wire) IP-rated power/data combo in/out cables attached, designed for permanent marine/coastal environment installations.

ELA0331	SixPar 300WMG HW

SixBar

SixBar 500

The SIXBAR 500™ features (6) 12W 6-IN-1 RGBAW+UV LEDs, 100,000 average hour LED life, 30° beam angle, individual control of each LED, variable dimming curve modes, strobe and chase effects, a UV wavelength of 395nm, ArtNet, KlingNet and RDM (remote device management) protocol support, 3pin and 5pin DMX, Locking Power Cable and RJ45 in/out connections, LCD menu display with 4 button control panel, integrated dual rigging brackets, multiple unit power linking, rugged die-cast aluminum exterior, frost filter and glare shield included, flicker free operation for TV and FILM, 93W max power consumption, and a multi-voltage universal auto switching power supply (110-240v).

ELA0321	SixBar 500

SixBar 1000

The SIXBAR 1000™ features (12) 12W 6-IN-1 RGBAW+UV LEDs, 100,000 average hour LED life, 30° beam angle, individual control of each LED, variable dimming curve modes, strobe and chase effects, a UV wavelength of 395nm, ArtNet, KlingNet and RDM (remote device management) protocol support, 3pin and 5pin DMX, Locking Power Cable, and RJ45 in/out connections, LCD menu display with 4 button control panel, integrated dual rigging brackets, multiple unit power linking, rugged die-cast aluminum exterior, frost filter and glare shield included, flicker free operation for TV and FILM, 145W max power consumption, and a multi-voltage universal auto switching power supply (110-240v).

ELA0319	SixBar 1000

SixBar 1000 IP

The IP65 rated SIXBAR 1000 IP™ features (12) 12W 6-IN-1 RGBAW+UV LEDs, 25° beam angle, pixel control, variable dimming curve modes, strobe and chase effects, a UV wavelength of 395nm, RDM (remote device management) protocol support, IP rated DMX and power in/out connections, LCD menu display with 4 touch button control panel, dual adjustable rigging/floor stand brackets, glare shield and frost filter included, multiple unit power linking, rugged die-cast aluminum exterior, flicker free operation for TV and FILM, 145W max power consumption, and a multi-voltage universal auto switching power supply (110-240v).

ELA0320	SIXBAR 1000IP

Limelight

Limelight Par L

The LIMELIGHT PAR L engine features (12) 60W RGBL LED's, capable of producing 8,213 lumens, provides high output for saturated color mixing, and the wide color spectrum and high CRI needed for the quality of light that key and fill light applications require. The newly designed optical system allows for a highly homogenized output with even color and light distribution throughout the beam. The fixture also features a wide zoom range from 5° to 40°. The smooth and responsive effect provides a well-defined narrow beam for mid-air effects and long throw distances as well as a wide and even wash coverage at shorter distances.

ELA0172	Limelight Par L

Limelight Par S

The LIMELIGHT PAR S engine features (7) 60W RGBL LED's, capable of producing 5,345 lumens, provides high output for saturated color mixing, and the wide color spectrum and high CRI needed for the quality of light that key and fill light applications require. The newly designed optical system allows for a highly homogenized output with even color and light distribution throughout the beam. The fixture also features a wide zoom range from 5° to 42°. The smooth and responsive effect provides a well-defined narrow beam for mid-air effects and long throw distances as well as a wide and even wash coverage at shorter distances.

ELA0173	Limelight Par S

Pixel

Pixel Wash 40IP

The PIXEL WASH 40IP is a lightweight, outdoor IP65 rated LED wash / effect par fixture featuring 4 in 1, 10-watt RGBW LED's, a PWM (pulse width modulation) of 44,000Hz for flicker free operation for broadcast, TV, and film applications, a beam angle of 32° and a field angle of 60°. This unit features two integrated 4pin power/data in and out whips with locking connectors.

ELA0232	Pixel Wash 40IP

Pixel Bar 30IP

The PIXEL BAR 30IP™ is an outdoor IP65 rated LED pixel bar featuring (30) tri-color RGB SMD LEDs with a 16mm pixel pitch, a refresh rate of 44,000Hz for flicker free operation for broadcast TV and FILM applications, and measures 0.5 meter (1.6 feet) in length. Each pixel bar is housed in a lightweight IP65 rated aluminum housing featuring magnetic end caps which allow seamless end-to-end pixel spacing, an integrated adjustable mounting bracket, a safety cable loop, and includes square and rounded frosted lens attachments.

ELA0225	Pixel Bar 30 IP

Pixel Bar 60IP

The PIXEL BAR 60IP™ is an outdoor IP65 rated LED pixel bar featuring (60) tri-color RGB SMD LEDs with a 16mm pixel pitch, a refresh rate of 44,000Hz for flicker free operation for broadcast TV and FILM applications, and measures 1 meter (3.3 feet) in length. Each pixel bar is housed in a lightweight IP65 rated aluminum housing featuring magnetic end caps which allow seamless end-to-end pixel spacing, an integrated adjustable mounting bracket, a safety cable loop, and includes square and rounded frosted lens attachments.

ELA0226	Pixel Bar 60 IP

Pixel BFMCC

This is a Female Chassis mount connector for the Pixel Bar IP Series power/data cable.

ELA0227	PIXEL BFMCC

Pixel BMCC

This is a Male Chassis mount connector for the Pixel Bar IP Series power/data cable.

ELA0228	PIXEL BMCC

Pixel Bar 120IP

The PIXEL BAR 120IP™ is an outdoor IP65 rated LED pixel bar featuring (120) tri-color RGB SMD LEDs with a 16mm pixel pitch, a refresh rate of 44,000Hz for flicker free operation for broadcast TV and FILM applications, and measures 2 meter (6.6 feet) in length. Each pixel bar is housed in a lightweight IP65 rated aluminum housing featuring magnetic end caps which allow seamless end-to-end pixel spacing, an integrated adjustable mounting bracket, a safety cable loop, and includes square and rounded frosted lens attachments.

ELA0224	Pixel Bar 120 IP

Pixel Amp 200

The Pixel Amp 200 is a 200W power and signal amplifier for the Pixel Wash 40IP. This amplifier is designed to work in conjunction with the Elation Pixel Driver 170IP, Pixel Driver 1000IP or the Pixel Driver 4000V3. Each Pixel Amp 200 can power up to 8 Pixel Wash 40IP's in standard mode or 5 Pixel Wash 40IP's in HiPower mode. Up to 4 Pixel Amp 200's can be used in line for each driver output giving you the ability to control a total of 40 Pixel Wash 40IP's in standard mode or 25 Pixel Wash 40IP's in HiPower mode for each driver output. The unit comes equipped with Power In, Data In/Out pigtail connections, and is IP65 rated, which protects the unit from the ingress of dust, as well as low pressure water jets sprayed from any direction.

ELA0217	Pixel Amp 200

Drivers

Pixel Driver 4000 V3

PIXEL DRIVER 4000 V3™ is designed specifically for the Elation PIXEL TAPE 16IP, 40IP, PIXEL BAR 30IP, 60IP, 120IP series and PIXEL WASH 40IP, and provides easy and versatile control options including simple on-board manual dimming and strobe control, and full pixel mapping control of 4,080 max pixels, 1,020 pixels per port, via Kling-Net, Art-Net and sACN (streaming ACN) protocols.

ELA0231	Pixel Driver 4000 V3

Pixel Driver 1000IP

PIXEL DRIVER 1000IP™ is designed specifically for the Elation PIXEL BAR 30IP, 60IP, and 120IP series, and provides easy and versatile control options including simple on-board manual dimming and strobe control, and full pixel mapping control of 1,020 max pixels via ArtNet, sACN or Kling-Net protocols.

ELA0229	Pixel Driver 1000IP

Pixel Driver 170IP

PIXEL DRIVER 170IP™ is a professional, IP65, driver specifically designed for the Elation PIXEL TAPE 16IP, PIXEL TAPE 40IP and PIXEL WASH 40IP. This driver provides simple and easy control options including a 4-button OLED Display, EL IR Remote (included), and one full universe of DMX control (170 pixels). The PIXEL DRIVER 170IP features an easy-to-use OLED display, Pixel grouping, DMX IN and OUT, a 4pin XLR connector for LED output, and a 2pin connector for 12-24VDC power IN.

Magmatic

MagRemote VIDI

MagRemote VIDI is compatible with Magmatic's line of products, like the Therma series, Magma series, and Polar series. "Rocket Series is not fully compatible with the remote"	
ELA0184	MagRemote VIDI

Sidewinder

The MAGMATIC SIDEWINDER is a high-velocity CO2 simulator fog machine, including 22 x 3-watt RGBA LEDs (Red X5 Green X6 Blue X6 Amber X5). The Sidewinder can burst fog in multiple positions, rotating 180° degrees. Equipped with an easy to use onboard LCD touch screen control panel, intuitive DMX-512, RDM control, durable aluminum housing, and optional wired and wireless remote control options.	
ELA0304	SIDEWINDER

Javelin

A member of MAGMATIC'S Rocket series of CO2 cryogenic simulation effects, the MAGMATIC JAVELIN™ is a high-velocity CO2 simulator fog machine for high-impact moments. Featuring 34 x 3-watt RGBA (Red X10 Green X8 Blue X8 Amber X8) LEDs for throws of dynamic colored effect, the JAVELIN can rotate 90-degrees for horizontal or vertical bursts of fog. Wrapped in a durable aluminum housing, the JAVELIN is intuitively controllable via DMX-512 and RDM and houses an easy-to-use onboard LCD touch screen control panel. Wired and wireless remote control options are available.	
ELA0131	JAVELIN

Magma Prime

MAGMA PRIME™ is a water-based fazer with advanced technology providing a high-volume dry faze effect with low fluid consumption. The new HPA (high pressure air) pump technology reduces the risk of heater clogging. Features includes an easy to use onboard LCD touch screen control panel, intuitive DMX-512 and RDM control, a durable aluminum housing, and optional wired and wireless remote control options.	
ELA0183	MAGMA PRIME

Therma Tour 600

The THERMA TOUR 600 is a premium haze effect generator that produces an exceptionally fine, long-lasting atmospheric haze that excels at revealing light beams and mid-air effects. The 350W THERMA TOUR 600 creates a safe, clean and odorless haze effect that leaves no residue.	
ELA0406	THERMA TOUR 600

MAGFLY

MAGFLY is a wireless DMX receiver card compatible with all Magmatic foggers, hazers, snow machines, CO2 simulators, low-lying, and bubble machines. Compatible with MAGMATIC MAGFLY and Elation Efly transceivers.	
ELA0180	MAGFLY

Magma Prime FC

The Magma Prime FC is a rugged road case, custom-built to protect and conveniently operate the Magmatic Magma Prime. Ideal for mobile entertainers and production crews, it ensures your valuable effects equipment stays safe during transport.	NEW
ELA0454	MAGMA PRIME FC

Therma Tour 800

The Therma Tour 800 is a powerful oil-based haze effect generator that produces an exceptionally fine, long-lasting atmospheric haze that excels at revealing light beams and mid-air effects. The 800W THERMA TOUR 800 creates a safe, clean and odorless haze effect that leaves no residue.	
ELA0407	THERMA TOUR 800

Crisp

CRISP™ is a high volume compact lightweight snow machine with advanced technology providing adjustable snowflake size, along with a lower operating noise for noise-sensitive environments. The new the Auto-Clean feature, provides less clogging and requires less maintenance. Features include an easy-to-use onboard LCD touch screen control panel, intuitive DMX-512, and RDM control, durable aluminum housing, and optional wired and wireless remote control options.

ELA0058	CRISP

Crisp Max

POLAR CRISP MAX™ from MAGMATIC atmospheric effects, a dependable, high-output snow machine that makes it easy to create scene-setting wintry settings. CRISP MAX is capable of producing high volumes of naturalistic snow with the capacity to adjust snowflake size for greater versatility. It includes a 20-liter fluid tank hidden inside a road case with durable casters for easier portability. The unit's 10-meter long hose can be rigged on a standard truss or tripod stand and can extend up to 30 meters horizontally or vertically.

ELA0059	CRISP MAX

PM-DMX1

MAGMATIC PM-DMX1™ is an optional pan motor accessory for the MAGMATIC CRISP MAX™ Snow Machine. Install the output nozzle of the Crisp Max, using the included mounting bracket, onto the PM-DMX1 to precisely control 120 degrees of pan movement via DMX-512 or manually using the 4-button LED control panel menu display on the unit.

ELA0233	PM-DMX1

Magma Fog 1500 IP-II

The MAGMA FOG 1500 IP-II™ is a 1500W water based, IP67 rated fog machine with a maximum output of 60,000 CFM (cu ft/min). Features include an easy-to-use onboard LCD touch screen, an intuitive DMX-512 and RDM control, and optional wired and wireless remote-control. Each MAGMA FOG 1500 IP-II comes equipped with a thermally protected heat exchanger that has an initial warm up time of 14 minutes, with a fluid consumption rate of 6.76 oz (200 ml/min). This unit is designed with a durable aluminum housing, IP65 locking power in, IP65 locking 5pin XLR connectors (DMX In/Out), a 5-liter (1.32 gallon) tank, two heavy duty carry handles, and a hanging bracket for truss mounting.

ELA0182	MAGMA FOG 1500 IP-II

MagRF

The MAGMATIC MAGRF™ is a 433-MHz wireless remote control that is compatible with all MAGMATIC foggers, hazers, snow machines, CO2 simulators, low lying, and bubble machines. Once the receiver unit is installed, it has an effective range of up to 150-feet with clear line-of-sight (50-meters) to manually control the output of your Magmatic machine.

ELA0185	MagRF

MagRF-R

The MAGMATIC MAGRF-R™ is a 433 MHz wireless receiving card with a working distance of 150 feet. This wireless receiving card works in conjunction with the MAGRF-T™ and is compatible with all MAGMATIC foggers, hazers, snow machines, CO2 simulators, low lying machines, and bubble machines.

ELA0186	MagRF-R

MagRF-T

The MAGMATIC MAGRF-T™ is a 433 MHz wireless transmitting remote with a working distance of 150 feet. This wireless transmitter works in conjunction with the MAGRF-R™ (receiver) and is compatible with all MAGMATIC foggers, hazers, snow machines, CO2 simulators, low lying machines, and bubble machines.

ELA0187	MagRF-T

MAGMAFAN 1

MAGMAFAN 1 is a compact all-purpose stage fan that features multiple control options, linear output control, low power consumption, adjustable blowing directions, and durable metal housing.
Low power consumption is only 80W, allowing you to put on the same circuit as your fog machine. The adjustable mounting/floor bracket included enables you to adjust the fan output 90 degrees. Easy to use onboard LCD touch screen control panel, intuitive DMX-512, and RDM control. Its durable aluminum housing design allows easy carry and storage, with optional wired and wireless remote control.

ELA0181	MAGMA FAN 1

PSCM Hose-10M

This is a 10 metre extension hose assembly (for both power & fluid delivery) for the Crisp Max.
It allows the snow cannon unit to deploy further away from the main Crisp Max unit. A maximum of 3 hoses can be joined to extend a total of 30 metres from the main unit.
It connects easily in seconds, with no special tools needed.
Note - The Crisp Max already ships with one of these 10 metre extension hoses inside the storage hatch.

ELA0290	PSCM Hose-10M

Prisma

Prisma Par 50

PRISMA PAR 50™ is an exterior IP65 rated UV wash par luminaire that produces 365nm peak true UV output with zero visible light, and an impressive 50 degree wide beam angle from the large internal LED reflector. Features includes a user friendly digital 2.5 inch LCD touch screen control panel, intuitive DMX-512 and RDM control, dual adjustable mounting yokes, a durable aluminum housing, and IP65 DMX 5pin XLR and locking power in/out connections.

ELA0241	Prisma Par 50

Prisma Par 20

PRISMA PAR 20™ is an exterior IP65 rated UV wash par luminaire that produces 365nm peak true UV output with zero visible light. Features include a 20 degree narrow beam angle, a user friendly digital 2.5 inch LCD touch screen control panel, intuitive DMX-512 and RDM control, dual adjustable mounting yokes, a durable aluminum housing, IP65 DMX 5pin XLR and locking power in/out connections.

ELA0240	Prisma Par 20

Prisma Wash 100

PRISMA WASH 100™ is an exterior IP65 rated UV wash luminaire that produces 365nm peak true UV output with zero visible light. Features include a scoop LED reflector design which creates an impressive 90 degree wide beam angle, manual adjustable tilt positioning and versatile rigging options, a user friendly digital 2.5 inch LCD touch screen control panel, intuitive DMX-512 and RDM control, and IP rated power and data in/out.

ELA0243	Prisma Wash 100

Prisma Wash 25

PRISMA WASH 25™ is an exterior IP65 rated UV wash luminaire that produces 365nm peak true UV output with zero visible light. Features include an impressive 20 degree narrow beam angle, manual adjustable tilt positioning and versatile rigging options, a user friendly digital 2.5 inch LCD touch screen control panel, intuitive DMX-512 and RDM control.

ELA0244	Prisma Wash 25

Prisma Mini Par 45

PRISMA MINI PAR 45™ is an IP65-rated exterior UV wash par luminaire that produces 365nm peak true UV output with zero visible light, and an impressive 45-degree beam angle.

Powered by the PRISMA DRIVER 8™ or PRISMA DRIVER 8IP™, 'Not Included'

ELA0238	Prisma Mini Par 45

Prisma Mini Par 20

PRISMA MINI PAR 20™ is an IP65-rated exterior UV wash par luminaire that produces 365nm peak true UV output with zero visible light, and an impressive 20-degree beam angle.

Aria X2

Aria X2 Bridge

The single universe, indoor Aria X2 Bridge, the future of wireless lighting management, is here to transform your experience with unparalleled control, efficiency and ease. This comprehensive system harnesses cutting-edge technology to offer you a solution that adapts to your needs and provides a harmonious lighting experience, whether on show site or in the shop. In addition to transmitting the Aria X2 serial protocol, Aria X2 Bridge is also compatible with ADJ WiFLY, Elation eFly, Magmatic MagFly and Acclaim Aria.

ELA0025	Aria X2 Bridge

Aria X2 IPC

The versatile Aria X2 IPC wireless DMX / fixture management controller. Featuring a single DMX universe, this device operates seamlessly with 900MHz, 2.4 GHz WiFi, and Bluetooth connectivity. Its IP65 housing ensures durability, making it suitable for both indoor and outdoor applications. With support for various protocols including DMX, Bluetooth 5.2, and our proprietary Aria X2 Mesh Protocol, this controller offers flexibility and ease of use. Complete with front panel configuration and future app compatibility, it's the perfect solution for lighting professionals.

ELA0026	Aria X2 IPC

Aria X2 IPC Bridge

The single universe, IP65 rated Aria X2 Bridge, the future of wireless lighting management, is here to transform your experience with unparalleled control, efficiency and ease. This comprehensive system harnesses cutting-edge technology to offer you a solution that adapts to your needs and provides a harmonious lighting experience, whether on show site or in the shop. In addition to transmitting the Aria X2 serial protocol, Aria X2 Bridge is also compatible with ADJ WiFLY, Elation eFly, Magmatic MagFly and Acclaim Aria.

Accessories

A-Loader HH

he A loader HH™ is a battery powered hand held software uploader device used to update Elation compatible lighting fixtures. Easily upload a software update to an Elation lighting fixture by connecting the uploader to the fixture using a 3pin or 5pin DMX cable (not included). Elation software updates (not included) are stored on a SD card (included) and inserted into the uploader. A loader HH™ features an LCD display, 4 push button control panel, a SD card slot, 3pin and 5pin XLR DMX outputs, an On/Off switch and includes a 12VDC external power supply and blank SD card.	
ELA0005	A-Loader HH

C-Loader II

The C loader-II™ is a battery powered hand held software uploader device used to update and test Elation compatible lighting fixtures. Easily upload a software update to an Elation lighting fixture by connecting the uploader to the fixture using a 3pin DMX cable (not included). Elation software updates (not included) are stored on a MICRO SD card (included) and inserted into the uploader. The C-Loader-II™ can also be used as a DMX and RDM Tester. The C loader-II™ features an LCD display, 6 button control panel, a MICRO SD card slot, a 3pin XLR DMX output, an On/Off switch, and includes battery, USB cable, USB to MICRO SD card adapter and blank MICRO SD card.	
ELA0038	C-Loader II

E-Fly Transceiver

The E-FLY™ Transceiver is a long range wireless DMX Transceiver (Transmitter/Receiver in one) that is compatible with other E-FLY™ products and includes a rechargeable battery, which provides a solution for remote applications where access to power is a challenge. Connected to a DMX Controller, the E-FLY™ Transceiver will provide a constant and reliable wireless DMX signal up to 2,500 feet (762m) to other Elation E-FLY™ products. The 2.4 GHz wireless frequency will coexist in busy RF environments alongside technologies like Bluetooth and Wi-Fi.	
ELA0081	E-Fly Transceiver

E-Loader III Softw.Update Box f. Elation

The E-LOADER III™ is a battery powered hand held software uploader device used to update Elation compatible lighting fixtures. Easily upload a software update to an Elation lighting fixture by connecting the E-LOADER III™ to the fixture using the included 3pin DMX cable. Elation software updates (not included) are stored on a MICRO SD card (included) and inserted into the uploader. E-LOADER III™ features an LCD display, 6 button control panel, a MICRO SD card slot, a 3pin XLR DMX output, an On/Off switch, and includes battery, 3pin DMX cable, USB cable, USB AC adapter, USB to MICRO SD card adapter, and a blank MICRO SD card.

Converts MIDI Data to analog signals

ELA0188	MULTI-DATA/PAK - Demultiplexer

EZ Kling

The EZ KLING™ is an RJ45 to DMX, KlingNet™, ArtNet and sACN interface, which allows you to pixel map KlingNet™ and DMX compatible fixtures through the KlingNet™ mapper included in Media Master Express™ and Media Master Pro™ (not included). Ideal for use with Flex Pixel Tape™ and LED Pixel controllable DMX fixtures. One EZ KLING™ interface will drive up to 600 Flex Pixel RGB pixels using KlingNet™ control protocol or 170 DMX Pixels via ArtNet/ DMX control. EZ Kling™ can also be used as a 1-port Node to convert ArtNet to DMX. Includes a magnet on the back panel for easy metal surface mounting and a mini omega bracket for clamp/truss mounting.

ELA0084	EZ Kling

IP Tester

The IP TESTER is a unique mobile service tool developed by Elation to test the integrity of any compatible IP-rated lighting fixture such as Elation's PROTEUS series fixtures, after being opened for lamp and gobo replacement or repair. Unlike other IP fixture test devices currently available in the market, Elation's IP TESTER has been designed to test for both Vacuum and Pressure leaks.

ELA0129	IP Tester

IPC415

The IPC415™ is a 19" rack mountable intelligent DMX power control center, featuring 4 locking power outputs (15A each), 4 5pin XLR DMX outputs, 1 5pin XLR DMX input and 1 5pin XLR DMX through and a multi-voltage universal auto switching power supply (100-240v 50/60Hz). Power to the power outputs can be scheduled to automatically switch On/Off via an internal scheduler when DMX signal is lost or when a specific cue is triggered from a DMX console. The IPC415™ can be mounted with the 19" rackmounts or truss mounted using a clamp (not included) attached to the M10 rigging point in the center of the unit.

ELA0130	IPC415

LTrack C-Clamp 44.5mm (CA2)

The 44.5mm L-Track Narrow Clamp adapter is specifically designed for seamless integration with the Pulse Bar S, Pulse Bar L, Pulse Panel, Six+ Bar S and Six+ Bar L. Offering unmatched versatility and reliability, it secures your valuable equipment with precision. This adapter, crafted with meticulous engineering, guarantees a perfect fit within the Pulse Bar S, Pulse Bar L, and Pulse Panel ecosystem, providing a hassle-free solution for mounting and securing your gear.

Atmosity Effects Fluids

AAB - Bubble Fluid - 2L

The Atmosity AAB™ is a transparent water-based bubble juice that was formulated to work with most bubble machines. The AAB bubble juice produces hundreds of high-flying bubbles with an average hangtime of 20-30 seconds under optimal conditions. Atmosity AAB Bubble juice bottles are available in 2-litre and 4-litre containers. This bubble juice is pH balanced, colorless, non-toxic, non-irritating, odorless, and eco-friendly. It requires no dilution and is ready for use right out of the container.

AAH - Premium Haze Fluid - 2L

The Atmosity Premium Haze Fluid is a water based haze fluid intended to create synthetic atmospheric effects for use with Magmatic Hazer machines - Thermatic™ series, or any other compressor system haze machines that require water based fluid. The Atmosity Premium Haze Fluid is a water-based haze liquid, much drier than the oil-based version. So, this liquid produces virtually no residue. It's Colorless, odorless and non-flammable.

ELA0009	AAH - Premium Haze Fluid - 2L

ELA0010	AAH - Premium Haze Fluid - 4L

AEF - Extreme Filtered Fluid - 2L

Atmosity is a high-quality, professional fluid series formulated for use with all types of effect machines. Rigorously tested for consistency and controlled to ensure it is the most pure atmospheric fluid available. Atmosity fluid is treated, filtered and then quality checked for purity, color, density and acidity. The result corresponds to a purity level equivalent to water used by medical laboratories. The Atmosity AEF extreme filtered fog fluid produces dense smoke and haze effects. Formulated for the Magmatic Magma™ series, it can be used in most atmospheric, heater based fog machines.

ELA0011	AEF - Extreme Filtered Fluid - 2L

AEF - Extreme Filtered Fluid - 20L

Atmosity is a high-quality, professional fluid series formulated for use with all types of effect machines. AFF - Flash Fog Fluid - 20L

The AFF flash fog fluid by Atmosity is a water-based, fast-dissipating fog fluid specially formulated for the Magmatic Rocket™ series units, as well as most other standard water-based CO_2 simulators. With an average hangtime of 10-20 seconds under optimal conditions, the AFF flash fog fluid is specially designed to work with cryogenic simulators for high impact moments. Atmosity AFF Flash Fog Fluid bottles are available in 2-litre, 4-litre, and 20-litre containers. This fog fluid is pH balanced, colorless, non-toxic, non-irritating, and odorless, and it requires no dilution and is ready for use right out of the container.

ELA0014	AFF - Flash Fog Fluid - 20L

Light Shaping Filter LSF10-24 10°

Light Shaping Filters from Elation are easy-to-use poly carbonate sheets which can be cut to size to fit over any LED fixture and transmit up to 92% of the light, shaping it to the desired effect you want. You can smooth or widen out any LED Panel or Par while also improving the field of color or turn you LED Par can into a wall washer. Each sheet measures 609 x 609 mm. If outfitting a 10cm LED par can, for example, 36 filters could be cut from a 609 x 609 mm sheet, making the cost per fixture even more affordable.

ELA0168	Light Shaping Filter LSF10-24 10?

Light Shaping Filter LSF20-22 20°

Light Shaping Filters from Elation are easy-to-use poly carbonate sheets which can be cut to size to fit over any LED fixture and transmit up to 92% of the light, shaping it to the desired effect you want. You can smooth or widen out any LED Panel or Par while also improving the field of color or turn you LED Par can into a wall washer. Each sheet measures 558 x 609 mm. If outfitting a 10cm LED par can, for example, 30 filters could be cut from a 558 x 609 mm sheet, making the cost per fixture even more affordable.

ELA0169	Light Shaping Filter LSF20-22 20?

Light Shaping Filter LSF30-24 30°

Light Shaping Filters from Elation are easy-to-use poly carbonate sheets which can be cut to size to fit over any LED fixture and transmit up to 92% of the light, shaping it to the desired effect you want. You can smooth or widen out any LED Panel or Par while also improving the field of color or turn you LED Par can into a wall washer. Each sheet measures 508 x 609 mm. If outfitting a 10cm LED par can, for example, 30 filters could be cut from a 508 x 609 mm sheet, making the cost per fixture even more affordable.

ELA0170	Light Shaping Filter LSF30-24 30?

SIX+L GFK

The SIX+L GFK is an optional accessory kit that includes a gel frame holder and front bumper assembly that easily attaches to the SIX+ PAR L fixture, and a gel frame that easily slides into the holder. The SIX+L GFK accepts any 10" frame size accessory.

ELA0309	SIX+L GFK

SIX+L L1060

The SIX+L L1060 lens provides even and soft coverage with a 10°x 60° elliptical beam for use in the SIX+ PAR L fixture.
The lens is rotatable to the desired position.

ELA0310	SIX+L L1060

SIX+L L140

The SIX+L L140 provides even and soft coverage with a 1°x 40° elliptical beam for use in the SIX+ PAR L fixture.
The lens is rotatable to the desired position.

ELA0311	SIX+L L140

SIX+L WFL

The SIX+L WFL (wide flood) lens provides even and soft coverage with a 60° Beam Angle for use in the SIX+ PAR L fixture.

ELA0312	SIX+L WFL

SIX+L XFL

The SIX+L XFL (Extra-wide flood) lens provides even and soft coverage with a 100° Beam Angle for use in the SIX+ PAR L fixture.

ELA0313	SIX+L XFL

SIX+S GFK

The SIX+S GFK is an optional accessory kit that includes a gel frame holder and front bumper assembly that easily attaches to the SIX+ PAR S fixture, and a gel frame that easily slides into the holder. The SIX+S GFK accepts any 7.5" frame size accessory.

ELA0314	SIX+S GFK

Light Shaping Filter LSF601-24 60°x1°

Light Shaping Filters from Elation are easy-to-use poly carbonate sheets which can be cut to size to fit over any LED fixture and transmit up to 92% of the light, shaping it to the desired effect you want. You can smooth or widen out any LED Panel or Par while also improving the field of color or turn you LED Par can into a wall washer with our linear 60 x 1degree filter. Each sheet measures 508 x 609 mm. If outfitting a 15cm LED par can, for example, 12 filters could be cut from a 508 x 609 mm sheet, making the cost per fixture even more affordable.

PC lens assembly of Rembrandt

This is an optional PC lens assembly for the Artiste Rembrandt fixture.
The Fresnel lens supplied with the fixture is interchangeable with this Pebble Convex lens - the PC providing a tighter beam angle and higher center intensity for long throws or beam applications.

ELA0211	PC lens assembly of Rembrandt

SL Dome Lens

The SL Dome Lens for the SL Blinder serves as a visually transformative tool, softening and diffusing the fixture's intense light output with a gentle, flattering effect while also adding an additional dimension of character with it's dome shape. This modification is particularly valuable in scenarios where harsh brightness needs to be minimized, or where a more subtle, ambient illumination or visual element is desired. The SL Dome Lens offers even more flexible options to transform the look of the SL Blinder.

KL Lenses

KL Par FC Glass Lens

The KL PAR Glass lens replicates the iconic PAR lens look inside the fixture.
The facets create a slightly elliptical beam spread, and the lens is rotatable to the desired position.

NOTE: Image for illustration purposes, actual product may vary.

ELA0159	KL PAR FC Glass Lens

KL Par XWFL Lens

The KL PAR XWFL (extra wide flood) lens provides even and soft coverage with a 92° Beam Angle. This is an accessory lens to fit the KL Par, it slots onto the unit easily in seconds with no special tools needed.

NOTE: Image for illustration purposes, actual product may vary.

ELA0162	KL PAR XWFL LENS

KL Profile FC Fresnel Lens

The KL Profile FC Fresnel Lens is an optional accessory lens which offers the ability to convert the KL Profile FC from it's native projection optic to a smooth Fresnel wash.

ELA0164	KL Profile FC Fresnel Lens

14 Degree IP Lens Tube

The 14 Degree IP Lens Tube represents a leap forward in ellipsoidal lens design, offering advanced features for unmatched performance. With a sealed internal lens assembly, it protects the optical path from dust, debris, and liquids, ensuring a consistently clean and efficient light output. Its IP67 rating guarantees long-lasting, bright performance, even in challenging environments. Designed for maximum optical efficiency, the lens tube delivers exceptional output without compromise. Compatible with any fixture that accepts industry-standard lens tubes, it offers unparalleled versatility. Additionally, the durable C4 Marine Coating ensures reliable operation in both indoor and outdoor settings.

ELA0431	14 Degree IP Lens Tube

19 Degree IP Lens Tube

The 19 Degree IP Lens Tube represents a leap forward in ellipsoidal lens design, offering advanced features for unmatched performance. With a sealed internal lens assembly, it protects the optical path from dust, debris, and liquids, ensuring a consistently clean and efficient light output. Its IP67 rating guarantees long-lasting, bright performance, even in challenging environments. Designed for maximum optical efficiency, the lens tube delivers exceptional output without compromise. Compatible with any fixture that accepts industry-standard lens tubes, it offers unparalleled versatility. Additionally, the durable C4 Marine Coating ensures reliable operation in both indoor and outdoor settings.

ELA0432	19 Degree IP Lens Tube

KL Panel Accessories

KL Panel Intensifier Lens

The KL Panel Intensifier Lens it optimized to shape the output of the fixture when a higher center intensity is required. This lens provides a 50° beam and 89° field angle and increases the center intensity by over 30%. It is an easy drop in replacement for the standard diffuser.
Optimized for the KL Panel it helps utilize the fixture at longer distances or to increase output while keeping the field smooth for perfect illumination.

ELA0150	KL Panel Intensifier Lens

KI Panel Narrow Yoke

The KL Panel Narrow Yoke is a yoke that makes it possible to position the KL Panel practically anywhere, including vertically. The KL Panel Narrow Yoke, which slides onto the rail mounting system on the rear of the KL Panel, replaces the regular Yoke.

ELA0151	KI Panel Narrow Yoke

KL Panel Pole Operation Bracket

This is an accessory Pole Operation Bracket kit for the KL Panel. It replaces the standard Yoke to allow for pole operation in a studio environment. It installs easily within minutes.

ELA0152	KL Panel Pole Operation Bracket

KL Panel XL Intensifier Lens

The KL Panel XL Intensifier Lens it optimized to shape the output of the fixture when a higher center intensity is required. This lens provides a 50° beam and 89° field angle and increases the center intensity by over 30%. It is an easy drop in replacement for the standard diffuser.
Optimized for the KL Panel XL it helps utilize the fixture at longer distances or to increase output while keeping the field smooth for perfect illumination.

ELA0154	KL Panel XL Intensifier Lens

KL Panel XL IP Intensifier Lens

The KL Panel XL IP Intensifier Lens it optimized to shape the output of the fixture when a higher center intensity is required. It is an easy drop in replacement for the standard diffuser.
Optimized for the KL Panel XL IP it helps utilize the fixture at longer distances or to increase output while keeping the field smooth for perfect illumination.

ELA0156	KL Panel XL IP Intensifier Lens

KL Panel XL Pole Operation Bracket

This is an accessory Pole Operation Bracket kit for the KL Panel XL. It replaces the standard Yoke to allow for pole operation in a studio environment. It installs easily within minutes.

Snapgrid 40° f. Snapbag KL Panel XL/XLIP

This is a 40° Snapgrid for the KL Panel XL / XL IP to work only with the related KL Panel XL / XL IP Snapbag Softbox.

ELA0380	SNAPGRID 40? f. SNAPBAG KL PANEL XL/XLIP

Snapgrid 40° for Snapbag KL Panel

This is a 40° Snapgrid for the KL Panel to work only with the related KL Snapbag Softbox.

ELA0381	SNAPGRID 40? for SNAPBAG KL PANEL

Snapgrid 40° KL Panel XL IP

This is a 40° accessory SNAPGRID that fits directly and easily onto the KL Panel XL IP. This durable SNAPGRID offers control of the spread of the light. It snaps out of its compact pouch ready to easily attach via elastic straps to the corners of the KL panel XL IP.

ELA0382	SNAPGRID 40? KL Panel XL IP

Snapgrid 40° KL-Panel XL

This is a 40° accessory SNAPGRID that fits directly and easily onto the KL Panel XL. This durable SNAPGRID offers control of the spread of the light. It snaps out of its compact pouch ready to easily attach via elastic straps to the corners of the KL panel XL.

Panel not included

ELA0384	SNAPGRID 40? KL-PANEL XL

Snapgrid 40° Snapbag Universal KL Fresnel

This is a 40° Snapgrid for the KL Fresnel 6 & 8 Series to work only with the related SNAPBAG UNIVERSAL KL FRESNEL Softbox.

ELA0385	SNAPGRID 40? SNAPBAG Universal KLFresnel

Snapgrid 40° KL-Panel

This is a 40° accessory SNAPGRID that fits directly and easily onto the KL Panel. This durable SNAPGRID offers control of the spread of the light. It snaps out of its compact pouch ready to easily attach via elastic straps to the corners of the KL panel.

Snapgrid 40° TVL- Softlight DW

TVL SOFTLIGHT DW SNAPGRID 40 is designed exclusively for the ELATION TVL SOFTLIGHT DW. It easily attaches to the front of the TVL SOFTLIGHT DW to effectively reduce the light output spread from 115° to 40°. Taking full advantage of DoPchoice's patented instant set-up and self-tightening internal SNAPFRAMES, it practically snaps out of its compact pouch ready to easily attaches via hefty elastic straps to the corners of the TVL SOFTLIGHT DW.	
ELA0386	SNAPGRID 40? TVL- Softlight DW

Snapgrid 40° TVL-Panel DW

TVL PANEL DW SNAPGRID 40 is designed exclusively for the ELATION TVL PANEL DW. It easily attaches to the front of the TVL PANEL DW to effectively reduce the light output spread from 115° to 40°. Taking full advantage of DoPchoice's patented instant set-up and self-tightening internal SNAPFRAMES, it practically snaps out of its compact pouch ready to easily attaches via hefty elastic straps to the corners of the TVL PANEL DW.

Flex

Flex Pixel 5V/6A PSU

To be used as the Power Supply for the Flex Pixel P14WP or Flex Pixel P40WP products, It accepts an incoming voltage of 100-240VAC.

ELA0087	Flex Pixel 5V/6A PSU

Flex Pixel Driver1

Flex Pixel Driver is a dedicated DMX driver for up to 144 Pixels / 2 Tapes / up to 432 DMX channels of control. It's small, compact design allows for easy mounting and integration into your installation.

ELA0088	Flex Pixel Driver1

Flex Pixel IRC

The Flex Pixel IR Infrared Wireless Receiver & Remote driver allows for stand alone control of the Flex Pixel WP Tape

ELA0089	Flex Pixel IRC

Flex Pixel P14WP

The FLEX PIXEL P14WP™ is an outdoor rated 6.6 foot (2m) flexible LED pixel tape featuring (144) RGB SMD tri-color LED pixels (432 total DMX channels) spaced on 0.55" (14mm) centers, producing over 1 billion color possibilities with a 120° viewing angle, enclosed in an IP65 rated waterproof flexible cover which can be cut and extended every 2" (51mm), and mountable to most surfaces.

ELA0090	Flex Pixel P14WP

Flex Pixel P40WP

The FLEX PIXEL P40WP™ is an outdoor rated 10 foot (3m) flexible LED pixel tape featuring (72) RGB SMD tri-color LED pixels (216 total DMX channels) spaced on 1.6" (40mm) centers, producing over 1 billion color possibilities with a 120° viewing angle, enclosed in an IP65 rated waterproof flexible cover which can be cut and extended every 4" (102mm), and mountable to most surfaces.

ELA0091	Flex Pixel P40WP

Dartz

Dartz 360

The DARTZ 360™ is a unique, compact, narrow beam luminaire featuring a new patent pending single source 50W RGB LED engine producing an impressive 3° aperture, amazing high output level, and smooth color-mixed effects that can be used in a variety of applications requiring no minimum safe project distance as with typical discharge lamp beam fixtures, fast and precise 16-bit continuous 360° pan and tilt rotation, 14 static-stamped metal gobos, 6-facet linear and 8-facet independent rotating prisms, 0-100% linear frost filter for wash effects, high speed electronic shutter and strobe, electronic dimming and variable dimming curve modes, adjustable LED refresh rate and gamma brightness for flicker free operation for TV and FILM, DMX, RDM (Remote Device Management), Kling-Net, Art-NET, and sACN protocol support, Elation's E-FLY™ internal wireless DMX transceiver, 5pin XLR, RJ45 ethernet, and Locking Power Cable in/out connections, full color 180° reversible menu display with multi-button c

Seven

Seven Par 19IP

The SEVEN PAR 19IP™ is an IP65 outdoor rated seven color par wash luminaire with (19) 25W 7-in-1 RGBAW + Lime + UV LEDs (Red, Green, Blue, White, Amber, Lime, and a 395nm UV) producing up to 9,300 total output lumens and 90CRI.	
ELA0300	Seven Par 19IP

Seven Batten 14

The SEVEN BATTEN 14™ is a seven color 1.2 foot (0.4m) long batten wash luminaire with (12) 25W 7-in-1 RGBAW + Lime + UV (395nm) LEDs.	
ELA0297	Seven Batten 14

Seven Batten 42

The SEVEN BATTEN 42™ is a seven color 3.5 foot (1m) long batten wash luminaire with (36) 25W 7-in-1 RGBAW + Lime + UV (395nm) LEDs.	
ELA0298	Seven Batten 42

Seven Batten 72

The SEVEN BATTEN 72™ is a seven color 6 foot (1.8m) long batten wash luminaire with (60) 25W 7-in-1 RGBAW + Lime + UV (395nm) LEDs.	
ELA0299	Seven Batten 72

ZCL

ZCL Bar Z300IP

The ZCL BAR Z300 IP™ is a versatile IP65 rated bar effect luminaire with zoom, (5) individual 60W RGBW 4-in-1 LEDs, and the new advanced collimator optic lens which produces a sharp 4° color-changing beam from each lens.	
ELA0422	ZCL BAR Z300IP
