

B Series

B12		
<p>The B12 is a twelve-channel power distribution unit suited for a wide range of applications and purposes that need reliable power delivered without interruption. Included in a very compact form-factor are superior 2-pole hydraulic-magnetic breakers, individual earth protection per channel, loss of neutral protection, emergency stop, a fixed power-cable and a single-phase convenience socket that can be adapted for different markets depending on your needs. Built on same proven technologies as the ...</p>		
B12A-13	STG0020	RRP: £2,634.78
B12A-23	STG0021	RRP: £2,426.09
B12A-53	STG0022	RRP: £2,782.61
B12A-73	STG0023	RRP: £2,678.26

B24		
<p>The B24 is a twenty-four-channel power distribution unit suited for a wide range of applications and purposes that need reliable power delivered without interruption. At only six rack units it is a very compact power distro that includes superior 2-pole hydraulic-magnetic breakers, individual earth protection per channel, loss of neutral protection, emergency stop, a fixed power-cable and a single-phase convenience socket that can be adapted for different markets depending on your market and nee...</p>

B24A-43	STG0027	RRP: £3,947.83
B24A-53	STG0028	RRP: £4,226.09

Bquad		
<p>The B-quad serves as the heart in any B-series power distribution solution together with the B12 and the B24 units. It provides power and metering for up to four separate B-series units but can of course be used in any situation where a reliable and flexible 3-phase power distribution unit is needed. The B-quad is a fully customizable, four output, 3-phase power distribution that's fitted with the same high grade hydraulic-magnetic circuit breakers as the acclaimed C-series, providing you...</p>		
BQ-BU-125	STG0029	RRP: £1,869.57

C Series

C12			
<p>The C12 is a twelve-channel power distribution unit suited for a wide range of applications and purposes that need intelligent and reliable power delivered without interruption. Included in a very compact form-factor are superior 2-pole hydraulic-magnetic breakers, individual earth protection per channel, loss of neutral protection, emergency stop, a disconnectable power-cable and a single-phase convenience socket that can be adapted for different markets. The C12 has a unique real-time load moni...</p>

C12B-53	STG0003	RRP: £4,278.26	
C12B-73	STG0004	RRP: £4,113.04	

C24			
<p>The C24 is a twenty-four-channel power distribution unit designed for the needs of the entertainment industry. Perfectly suited to power LED screens, intelligent lighting, audio-systems and all of the complex loads that can be a real challenge to handle without interruptions. Included in a very compact form-factor are superior 2-pole hydraulic-magnetic breakers, individual earth protection per channel, loss of neutral protection, emergency stop and a disconnectable power-cable. Channel 21-23 are ...</p>

Cquad63			
<p>The C-quad 63 is the perfect teammate for the C12 and the C24 power distribution units. It enables you to build a truly flexible system with possibilities normally not found in power distribution units for the entertainment industry market. The C-quad combines a 400A powerlock feed with an adjustable 250A molded case circuit breaker and high grade hydraulic-magnetic 63A miniature circuit breakers. Each channel is connected to our C-series 5-wire Harting power connectors and X4 also gives you a 5-...</p>			
C-QUAD-63-1	STG0010	RRP: £4,382.61

C72tv

C72tv		
<p>The C72tv is a 400A large-scale power distribution unit designed to meet all the requirements of delivering safe and reliable power to the modern-day entertainment industry. Seventy-two channels equipped with industrial-grade hydraulic-magnetic breakers and very precise individual residual current detection on each output. Thermal stability, better tolerance against earth-leakage and better handling of intermittent peak currents will enable you to connect even more complex loads on each channel.T...</p>

Xi24	
<p>** PRELIMINARY INFORMATION **The Xi24 is an installation friendly and upgradable power management system that both serves and protects. It's the perfect solution for theatres and other venues moving from conventional lighting powered by dimmers to LED based lighting that needs dependable and smart power distribution. The Xi24 can be placed anywhere – there is no dimmer "buzz" to worry about. And unlike conventional power distribution systems, the Xi24 has been purpose designed to handle d...</p>
